March

Gretchen Acharya

(Pastel demonstration for the March meeting)

As an artist, my primary experience of the world is visual. My gift is the ability to communicate this experience through art. My art is derived from my participation in and observation of the dance of life around me. Whatever the subject, it is my intention to reach beyond the simple reflection of a physical object, to communicate to the viewer on a deeper level. I am interested in the interplay of light, shadow and texture in defining form and expressing the living energy of the subject. My goal is to encourage people to observe life more thoughtfully.

My primary medium is soft pastel. I prefer pastel for a number of reasons, it's directness of execution, the unmatched brilliance and vibrancy of color, it's versatility and permanence. My style has evolved naturally from the interaction between the medium and my artistic vision.

☒ Youth Spring Art Show

Preparations are underway for the Youth Spring Art Show that is in collaboration with the Louisville Library. Last year we had wonderful participation from our local young artists. The Youth Artists Exhibit is work submitted by local art teachers. This show is different as the work can be submitted not only by local art teachers, but also parents, children, grand-

parents, and LAA members.

The exhibit dates are April 28th through May 25th. Pieces are juried by 3 members of our LAA. Work is received on the 28th, with the opening reception on the 29th. We rely on volunteers from LAA to help check in art, hang pieces, and later check out the art. Please contact Jane Evans 303-665-6093 if you are interested in volunteering or email me at [re-](mailto:re-vansj@comcast.net)
