## From the President

Our association of artists has been promoting the arts for our town and supporting each other as artists for decades. We all pull together to get it all done. In spite of life's irregularly unscheduled setbacks, we do 6 shows per year. We put on arts events and do activities, expand our horizons and

skills and keep the arts thriving. Each person brings their talents to their job. When one of us gets knocked down, others jump in and pull together every time.

I'm in the hospital in Arcadia California right now as I write this. I didn't plan this as part of my California vacation. I'm happy that I'm supposed to be discharged and back on my feet by tonight. So many people -- family and health care providers backed me up and got me back on my feet.

When you take on a job with LAA you are part of LAA's great group effort. When things go wrong people are there to help with every aspect of it. Teamwork is built into our LAA systems. As I type this -- wishing I could get discharged sooner, several LAAers are picking up the slack for me today. That's what we do. It seems to be the theme for the month. February's heroics saved our demo at the meeting -- problem solved when Lori Hight stepped up.

If you haven't already done so, please sign up for your volunteer job at the March meeting. Every job in LAA has excellent training and back-ups built into it.

Most importantly March is a good month to do art. Attend the March Dabbler, Marquetry, Portrait Painting and Open Studio. These are all happening this month in addition the whole month-long Youth Art Show at the library.

See you on the 10th at the meeting.

Emilie Parker

### Member Interview..

#### Carol J. Walker

Everyone who's worked for the Crown Prince of Dubai, raise your hands.....I thought not.! Only photographer Carol Walker was summoned by the prince to come to Dubai (18 hours by airplane) to create a horse photography workshop for two years in a row. She says the coolest part was when the stallions were all turned out into the vast desert. The Arabians remained within a roped-off area, with balloons tied to the ropes so they could clearly see their boundaries.

The international "Popular Photography" magazine this month followed her activities on the cover and with six pages of coverage and photos, including lists of where the wild horse herds can still be found. Carol is an ardent advocate for their preservation, saying that they are fast disappearing, being shoved aside by powerful interests such as cattle and oil and gas.

Carol adds, "Go and see them while they are still there." Closest to home is the Sand Wash Basin near Craig. (Google this, and maps will appear to help find these 400 wild horses. Expect, she says, to spend the day.)

### Workshops

#### Mixed Media

Victoria Kwasinski will be teaching an exciting Mixed Media Workshop March 29th-31st. If you have felt the joy slipping away from your art lately or have ever been intrigued by the idea of multimedia then this is a wonderful

opportunity for discovery and play that can put the joy and enthusiasm back in your practice. Using drawing, painting, scraping tools will encourage exploration to create different textures and marks that working with paint alone will not give you. Through a process of working intuitively and expressively, then editing out, you will work toward expressive abstract/semi-abstract work that has good color, value and a strong composition. "Personally I can't wait to add another dimension of discovery and experimentation to my own art. I highly recommend Victoria's workshop, she's a great teacher and an imaginative artist." -**Susannah Vandyke**
